erefore, prohibitive export tax. If this view is found, the treasury has already at hand measures of retaliation it seeks in the shape of an order prohibiting the importation of Canadian logs into the United States which would bear very heavily upon other provinces in Canada outside of Ontario.

A dispatch from London says: "The Foreign Office confirms the statements made by the New York correspondent of the Lon-don Times to the effect that the negotiations with the Canadian government on the subject of Alaska have reached an almost hope-less stage owing to the insistence of the Canadians that they receive a slice of Alaska, which apparently precludes any agreement being reached on the subject between the American and Canadian high commissioners. The evening newspapers here print the New York dispatch with comment, generally regretting the situation, but objecting to the conclusions that Can-

The question of Cuban shipping was again brought up by Secretary Gage, who furnished some data showing the amount of was reported the shipping was valued at \$6,000,000, but it turns out there are only six or seven vessels. These vessels could sail under the American flag if they were owned by American citizens. The data furnished by the Treasury Department was turned over to Attorney General Griggs for examination and report.

Postmaster General Smith brought up the question of the franking privilege in Cuba and Porto Rico. Under the old Spanish law many municipal and local officials were entitled to the franking privilege and have been allowed to exercise it since we assumed control. The postmaster general read a letter from Major Rathbone, who is at the bead of the postal affairs of Cuba, saying the number of persons exercising this privilege now was excessive and the question arose as to whether it would not be wise to cut the privilege off altogether. It is largely a question of policy and Postmaster General Smith will ascertain exactly to what extent the privilege is exercised and report to the Cabinet before final action is determined upon. The postmaster general has decided to send a special agent to Lake City, S. C., to examine the situation there with a view to determining whether or not a postoffice shall be re-established there.

The War Department's order of yester-

day giving clearance to Cuban vessels under the Cuban flag, has raised a question as to the right of the United States to take this step that ultimately will have to be determined by the attorney general. The order as issued by the War Department, simply authorizes its officers in Cuba to clear the vessels in question, but at present they will have to sail at their own risk, so far as any fines or penalties are concerned to which they may be subjected in foreign ports. The matter has been referred to the Treasury epartment as to whether or not the War Department has the right to authorize Cuban vessels to fly the Cuban flag under the American ensign. There is no question that the Treasury Department will decide that there is no existing law which would justify this step. The matter then will be referred to the attorney general for an opinion whether, under a broad construction of the law of military occupation, this country can authorize the use of this combination of flags and enforce its respect in the ports of foreign countries. This also may raise a nice question as to how far this course would commit the United States to the recognition of the independent rights of Cuba, a step that this government so far has studiously avoided. The matter is one of vital importance to the material interests of Cuba just now, and the department feels justified in taking an unprecedented course to furnish the Island relief in the

Brig. Gen. Asa B. Carr, paymaster general of the army, was to-day granted leave of absence to and including July 12, on which day he will go on the retired list on account of age. Col. Alfred E. Bates, who, next to Col. Frank M. Coxe, is the ranking officer in the pay department, has been assigned to duty as acting paymaster general, and the assignment is accepted by all the officers of the department as proof of the ultimate appointment to the head of the pay department. Colonel Bates is a graduate of the Military Academy, and has connected with the pay department 1875. He has just arrived in Washington after a short service as military attache of the United States embassy at London. He is a native of Michigan and a man of wealth and social distinction.

Native industries in Spain did not suffer during the war of 1898 as greatly as was feared. This is the statement of the British commercial attache at Madrid, H. Harrison, whose report to the British government on the trade of Spain for the year 1898 has just reached the Treasury Bureau of Statistics. Mr. Harrison's statement begins by saying: "In spite of the war's consequent general excitement and heavy taxation, native industries in Spain have not suffered as greatly as was feared they would do. The loss of the colonial markets, on which the export trade of Spain greatly depended, has made it necessary for the government to take serious steps for finding new markets for Spanish products and for stimulating and enlarging those already known. With this intention several impor-tant measures have been instituted. Commercial attaches have been appointed for Mexico, Brazil, Uruguay, the Argentine Reablic and Chile, and all possible steps are being taken to increase Spanish interest in these countries."

Guatemala has, in a manner, sought to rene between the United States and Honduras in the Pears case. The Honduran government has resisted the demand to the utmost for an indemnity of \$10,000 in behalf of the relatives of Pears. One of its movements was to ask to have the case referred to arbitration, but the facts were so clear and the precedents so strong that the State Department declined the proposition. Now United States Minister Hunter has informed the State Department that the Guatemalan minister at Tegucigalpa, the

Senator Aldrich, chairman of the Senate committee on finance, has issued a call for a meeting of that committee, to be held at the Fifth-avenue Hotel, New York, on the 9th of June. The meeting is expected to decide what course the committee will pursue under the resolution of the last session of Congress permitting the committee to held meetings during the congressional vacation. It is now considered probable the committee will authorize a subcommittee, consisting of the Republican members, to take up the financial question with the view of recommending a bill to the next session of Congress. Some members of the committee are in Europe, and it is not expected a full meeting will be secured.

He says also that when they reached Apla it was found and was in force, so that the committee be-gan its work under peaceful auspices. The A dispatch from Anderson says: T German embassy has not yet heard from Baron Speck Von Sternberg, the German commissioner. The feeling is entertained in liplomatic quarters that the arrival of the commissioners disposes of all critical features of the Samoan question. It is said the first step taken by the committee will be to secure the disarming of the two native elements, representing the rival claimants of the kingship, Malietoa and Mataafa, as it would not be feasible for the ommittee to proceed in their scheme of readjustment while two armed parties were threatening to take affairs in their own hands. Moreover it is said that the disarming of both sides will facilitate the acceptance of such decision as the committee arrives at, as any rebellious faction will be

Wireless Telegraphy.

NOTRE DAME, Ind., May 26.-Professor Jerome J. Green, of Notre Dame University, gave a demonstration of the workings of wireless telegraphy at St. Mary's Academy to-day. The experiments were witnessed by members of the graduating classes of chemistry and physics. The new Morris recorder was in operation, and a bell attachment that Professor Green had made. The bell is arranged to serve the purpose of a signal, as does the bell of a telephone. It is connected with the relay, and the operator receiving the message receives the signal. A switch is connected to lead the current from the bell to the recorder. The receiving instruments were placed in the parlor of the academy. The sending apparatus was at the university. The dots and dashes were received with accuracy. The recorder used to-day was first attached to the instruments during the visit of Mgr, Martinelli. The exhibition to-day at St. Mary's was the first that Professor Green had made before the students of the academy.

ALEXANDRIA COMPANY. CHARGED WITH VIOLATING AGREEMENT.

Anderson Company Buys Interurban and Marion Electric Lines-Other State News.

Special to the Indianapolis Journal. ALEXANDRIA, Ind., May 26.-There is another strike at the American plate-glass factory. The men in the casting hall and in the grinding shed walked out this morning. The trouble arose over a disagreement in regard to wages. At the time the factory was started, May 8, after the long strike, Hines will go first to Cleveland, thence to the company promised all the men a raise and to pay the same in the various departments that the Pittsburg Plate-glass Company pays, but they did not carry this out. Superintendent Elliott announced last night the amount the men would be paid in the different departments. It was seen some were to have a raise and others were to be cut from 25 to 50 cents a day. The new arrangement showed a gain in the company's favor of 10 per cent. in the wages paid. The men stopped work in the casting hall when they usually begin to cast the glass, and as it was all melted and ready to cast it will cause quite a loss to the company. There were notices posted in the factory last night giving the men ten days notice to the effect that the company will ask the State Labor Commission to grant them that an armistice already had been effected | the privilege of paying twice a month in-

A dispatch from Anderson says: This morning the management removed a man each from the two grinder gangs and as a result the entire force in the grinders' room, about fifty in all, walked out in sympathy, and refused to work till their fellow-laborers were restored to their former positions. The company was endeavoring to adjust the trouble, but late this evening the men were reported still out.

#### BANK HOLDS THE BAG. Attempt to Collect on Hedge and

Wire Fence Note a Failure. Special to the Indianapolis Journal NOBLESVILLE, Ind., May 26 .- The jury in the case of the State Bank of Indiana against Benjamin F. Hillis, the Indiana

Hedge and Wire Fence Company, Sterling R. Holt and others, which was brought to this city on a change of venue from Clinton county, and which has been on trial for eight days, returned a \$500 verdict this morning for damages against the fence company and finding for the other defendants. Hillis gave the company a note for \$500 for a quantity of the fence and when the paper was sold to the bank, Mr. Holt and the other defendants, who were officers in the company, indorsed it. When it became due. Mr. Hillis refused to meet the obligation on the ground that the fence had been misrepresented to him and wasn't worth the time it took to put it up. The verdict of the jury releases him from the payment of the note and holds the com-AN AUTOMOBILE'S FAST TIME pany responsible. The bank holds eight other notes, aggregating \$12,000, which were procured from Clinton county farmers in a similar manner, but as the same questions are involved in each case it is not likely that the others will be tried, although the attorneys representing the bank say they will insist on a separate trial in each instance.

#### Contest for Murdered Man's Body. Special to the Indianapolis Journal.

ARCADIA, Ind., May 26 .- Another sensation in the murder of "Chick" Hutchison by his wife Myrtle occurred yesterday afternoon, when an attempt was made by the father and supposed stepmother to ship the of the murdered man from Arcadia, by way of Indianapolis, to Pittsburg. The brother and real mother appeared on the scene and refused to allow the body to be placed on the L. E. W. south-bound express train. The quarrel is supposed to be over insurance on the man's life. It is understood that the present Mrs. Hutchison's name is Barr and that her home was in Bellaire, O., and that she is not the wife of the father of the murdered man. Undertaker Jenkins had to BUFFALO, N. Y., May 26.—A fight be- the coffin, and when the coffin was loaded and started for Indianapolis the real mother and wife telegraphed the authorities and had it returned to Arcadia on the next train, and it was buried here. Myrtle "Mick" Hutchison, the murderess, is lying in jail in a serious condition, and is believed by Drs. Haworth and Newcomer to be injured internally. Judge Neal has promised her attorney, John Hollett, to call a special grand jury, on June 12, to con-sider the case. Feeling is strongly in favor

of Delevan, Ill., bought 1,475 acres of land of J. C. Chancellor, of this city, and Huggins and Spargur, of Springfield, O., paying \$60,000. The land is all in one body and some of the best in the county. The war revenue stamps required for the deed amounted to \$165.50.

## Life Savers Want Their Pay.

Special to the Indianapolis Journal.

COLUMBUS, Ind., May 26.-Melvin McKee and Henry Johnson have filed a \$1,000 suit in the Circuit Court against the P., C., C. rendered. The complaint alleges that the tramped on her breast and kicked her two above named plaintiffs rescued Fireman Cowgill, in the employ of the Pennsylvania, on the night of the wreck south of this city in March, 1898. The plaintiffs affirm that they were indirectly employed by Su-perintendent Bushrod Taylor to take a boat and rescue Cowgill from a tree into which he had climbed to save himself from drowning; that they did so at the risk of their lives and therefore demand \$1,000 for their services. This incident occurred after the wreck south of this city in March, 1898, when eighteen trainmen were injured and almost drowned. Cowgill was washed into the top of a tree and remained there nearly all night. The weather was extremely cold and he almost froze to death before he was rescued. It was an extremely dangerous undertaking to attempt to reach him and very few men had the courage to try it.

#### Performing Ponies in Flames.

pecial to the Indianapolis Journal. HARTFORD CITY, Ind., May 26.-S. M Briscoe, who was the secretary of the late Democratic state convention, gave the initial performance of his dog and pony show here last evening before a big audience. There was a mishap which caused great excitement. One of the trained ponies in leaping through a hoop of fire became entangled in a hoop and was badly singed. The turpentine with which the hoop had been saturated was transferred to the pony and its coating took fire. As it ran around the ring the flames covered its legs. Another pony ran up to the blazing hoop after it was on the ground and stepped in it. It was also singed. The ponies were not seriously injured. Mr. Briscoe has the only pony in the United States which leaps from the top of the canvas into a tank of water. The show starts on the road Monday.

## Col. Durbin Sued by Sutlers.

Special to the Indianapolis Journal. ANDERSON, Ind., May 26 .- Col. W. T. Durbin, of the One-hundred-and-sixty-first Indiana, has been made defendant in three the wheels passing over him, killing him suits in Jacksonville, Fla. Two of them are instantly. Hood's home was at Dublin. Indiana, has been made defendant in three for damages and one for slander. When Colonel Durbin's regiment was encamped at Jacksonville he made careful scrutiny of the provisions sold to his men by sutlers. Complaint was lodged against two of them by officers of the regiment, and later Colonel Durbin's general in command ordered him to close up the suttlers. It was necessary to place one under arrest, and this so enraged the camp hanger-on that a suit resulted. He persuaded others to join him. Colonel Durbin has been assigned counsel by the government and will resist the suits. He has no uneasiness about the matter, but it is quite annoying.

## Anderson Consumers to Be Milked.

Special to the Indianapolis Journal. ANDERSON, Ind., May 26 .- The director of the Citizens' Gas Company of Anderson refused to accept the demand of the Fort Wayne Gas Company to increase the rates to consumers for the coming season, amounting to nearly 50 per cent., and the Fort Wayne company stated that it could not furnish gas for less. Under the proposed increase franchise holders would be required to pay the same as nonholders of franchises. A gas famine is one of the possibilities, unless an adjustment is made early or arrangements are made with some other com pany for the supply of gas. The Fort Wayne company demands the same rate for gas here as now prevails in Muncie, which is regarded as the highest in the State.

#### Nabbed a Man with Stolen Horse. Special to the Indianapolis Journal. FRANKLIN, Ind., May 26 .- A well-dressed

stranger to-day tried to sell a horse and buggy for \$65 to W. G. Harris, a Shelbyville horse buyer. The low price aroused suspicion and the stranger started out to secure references. After going a short distance he started to run. A number of peo-ple gave chase and he was captured and laced in jail. He gave his name as J. H. Smith, of Kentucky, and said he secured the horse near Brownstown. A telegram from that place was received during the afternoon notifying the officers to watch for a stolen horse.

## Compliment to Sculptor Barnard.

Special to the Indianapolis Journal. MADISON, Ind., May 26.-George Barnard, the Madison sculptor, had a great reception at the Metropolitan Museum, in New York, on opening day. A prominent feature of the occasion was the first public exhibition of "Pan," now in bronze. On the following day he was waited on by a committee, who tendered him a place in St. Gaudens's class in the School of the Architectural League in New York. Flattering as was the compliment, the young sculptor was constrained to decline it. He expects to go to Paris shortly in the interest of the Lafayette monument.

## Vincennes Damage Suits.

Special to the Indianapolis Journal. VINCENNES, Ind., May 26.-A \$10,000 damage suit was filed against the city today by Frank A Thuis, administrator of the Theodore G. Thuis estate. About three weeks ago Thuis was thrown out of buggy and sustained injuries which proved fatal. Suit was brought because of the alleged wretched condition of the street. ## THE BROOKLYNHANDICAP

SEVENTEEN HORSES MAY START IN TO-DAY'S GREAT RACE.

Filigrane Likely to Be the Favorite, but George Keene and Ben Holaday

Will Be Well Backed by Bettors.

NEW YORK, May 26.-The Brooklyn Jockey Club's spring meeting will open tomorrow and unless all signs fail, the attendance should be record-breaking. The track is as fast as at any time since it was built, and the field in the Brooklyn Handicap is well matched at the weight. Seventeen horses are named to start, and from present appearances all but one will go to the post. The list, weights and jockeys, is as follows: Ben Holladay, 127 (Taral); Algol, 121 (Burns); Pink Coat, 114 (Simms); Don D'Oro, 114 (Spencer); Banastar, 110 (Maher); Jeannette, 93 (Odom); Imp, 110 (Clayton); George Boyd, 110 (Hamilton); Bangle, 109 (Turner); Warrenton, 110 (O'Connor); Previous, 109 (Martin); Fleurde-Lis, 108 (Doggett); Box, 105 (H. Martin); Lanky Bob, 105 (Everett); Thomas Cat, 100 (O'Leary); Filigrane, 98 (McCue); Jefferson,

98 (Collins): George Keeene, 114 (Clawson). Some of the lot have been raced this year some will go to the post for the first time Handicap differs materially from the race gan this afternoon on Manhattan field, of a few years ago when the season opened | where it will be concluded to-morrow. One form of the previous year or on the exer-Fleur-de-Lis are the only ones on which no line can be got, except the gallops, and in spite of this, Ben Holladay is likely to be one of the best-backed horses in the race. In the afternoon by winning his high and low hurdle trials, was the one who did the trick. On the first jump the Pennsylvanian It is more than likely that Filigrane will be the favorite on account of his easy victory in the Metropolitan Handicap, although there is a lot of race-goers who do not believe that a three-year-old can win either the Brooklyn or the Suburban. Another popular favorite is Banastar, who broke records at Morris Park as well as Filigrane, and who has shown some fast time at the distance this week. Don D'Oro, too, will surely carry a lot of public money, especially as Spencer will be on him and ought to ride him better than O'Leary. Jefferson's race on Thursday at Morris at the track early and late to get points. In fact, if search is made it will be found that any horse sent out as a likely starter

has a host of friends and not one will go The new paddock will surely come in for much praise as it is the largest and most commodious of any in the country. More than this there is a big gallop reaching from the clubhoue where the horses may be seen without it being necessary to go down to the ground and run the risk of flying heels. That feature of the course is new in this country and may be copied at many other tracks when its popularity is manifest. The track is springy and was never in better condition, equally good for horses with sound or with bad legs, but the drouth has made it spring. The work of the horses over it has shown that a dozen have gone in better time than 2:10 with weight up; so that the general calculation is that a new record will be hung up for the distance which will stand for many a year. If the time test is of any value the finish should

show half a dozen heads apart in 2:06 or The following betting on the Brooklyn Handicap was announced to-night: Fili-grane, 3 to 1 and 6 to 5; George Keene, 5 to 1 and 2 to 1; Ben Holladay, 7 to 1 and 2½ to 1; Don D'Oro, 8 to 1 and 3 to 1; Banastar, 10 to 1 and 4 to 1; Previous, 12 to 1 and 5 to 1; Box, 12 to 1 and 5 to 1; Imp, 15 to 1 and 6 to 1; Jefferson, 20 to 1 and 8 to 1; Lanky Bob, 25 to 1 and 10 to 1; Thomas Cat, 50 to 1 and 20 to 1; Warrenton, 60 to 1 and 25 to 1; Fleur-de-Lia 50 to 1 and 20 to 1; Pink Coat. 60 to 1 and 25 to 1; Algol, 50 to 1 and 20 to 1; Bangle, 30 to 1 and 10 to 1; George Boyd, 100 to 1 and 40 to 1; Jeanette, 500 to 1 and 200 to 1.

## SAMMY KELLY COUNTED OUT.

Defeated by Terry McGovern in Less

than Five Rounds. NEW YORK, May 26.-Terry McGovern, of Brooklyn, defeated Sammy Kelly in less than five rounds at Broadway Athletic Club to-night. Kelly was in good shape, but Mc-Govern, with youth on his side, was better. Both stripped well, and, although McGovern was the favorite at 100 to 40 on, there

were many bets made at even money that

Kelly would last twenty rounds.

Both were cautions at the opening. Mc-Govern got in close and put four short-arm kidneys. Sammy began holding and was kidneys. Sammy began holding and was cautioned. McGovern punished his opponent on the body very severely. McGovern came up like a bulldog in the second round and forced Kelly into the latter's corner, sending right and left to the head, wind and ribs. Kelly, in an endeavor to break ground, slipped to the floor and McGovern helped him to his feet. Kelly kep breaking away McGovern forcing the page. In ing away, McGovern forcing the pace. It the third McGovern began boring in and sending his trip-hammer right hard and fast to Kelly's ribs. During the fourth Mc-Govern kept on forcing, landing hard and often, and had Kelly weak from body blows at the bell. In the fifth round Mc-Sovern was the aggressor and got Kell nto a neutral corner. Terry rushed an played for the upper works. He swung his left to the head, followed by a right on the jaw, staggering Kelly. Then, without a moment's delay, he sent his left to the jaw again and Kelly fell backward, his head striking the floor heavily. McGovern

## Broad Jump Record Broken.

NEW YORK, May 26 .- The twenty-fourth annual athletic meeting, under the auspices and their ability is pretty well known, while | of the Intercollegiate Amateur Athletic Association, to determine the intercollegiate this season. In this respect the Brooklyn | championship at field and track events, bewith it and favoritism was based on the world's record was smashed. This was on the running broad jump, the last event of cise gallops. Ben Holladay, Pink Coat and the card. A. C. Kraenzlein, of Pennsylvania, who had acquitted himself cleverly earlier trick. On the first jump the Pennsylvanian covered 23 feet 10½ inches, but eclipsed his own world's record of 24 feet 3½ inches on his second attempt, covering 24 feet 41/2 inches. There was some doubt as to whether his jump was a world's record, but "Father Bill" Curtis dispelled this by asserting that Newburn's jump of 24 feet 6% inches, made at Mullingar, Ireland, was not accepted by the Irish or English associations. Pennsylvania has certainly the best chance for the honors and except something happens to disable her representatives the intercollegi-ate trophy will remain in the University of

Pennsylvania for another year at least. One-Third Mile in 36 1-5 Seconds. CINCINNATI, O., May 26.-Harry Gibson the boy middle-distance bicycle rider, to-
